2.12.2 Engineer shall make good faith efforts to award subcontracts or supply agreements in at least «mwbe_goals»% of the value of this Contract to MWBEs. The City's policy does not require Engineer to in fact meet or exceed this goal, but it does require Engineer to objectively demonstrate that it has made good faith efforts to do so. To this end, Engineer shall maintain records showing:

Engineer shall submit the Drug Policy Compliance Declaration to the CCODT within thirty days of the expiration of each 6-month period of performance and within 30 days of completion of this Contract.  - .1 Salary charges calculated using a rate equal to or less than the applicable Salary Rate times hours actually worked, plus
 - .2 Subcontract Cost plus Subcontractor Markup for services that Engineer subcontracts.

3.2 **Method of Payment:** The City shall pay on the basis of monthly invoices submitted by Engineer and approved by the Director, showing the services performed and the fee. Invoices from Engineer shall show the hours worked in the preceding month and the corresponding hourly rates for Services. The City shall pay Engineer within 30 days of the receipt and approval of the invoices. The City shall make payments to the Engineer at the address for notices.

3.3 **Limit of Appropriation:** Engineer recognizes that under certain provisions of the Charter of the City of Houston, the City may not obligate itself by contract to an extent in excess of an amount appropriated by the City Council and further recognizes that only **\$«totalappro»** has been appropriated and budgeted by City Council to pay the cost of services hereunder.

3.3.1 In the event the total appropriation is insufficient to compensate Engineer, Engineer may suspend its services at such time as the total appropriation is expended, but shall resume such services, if and when authorized by the Director, upon transfer of funds by the Director or appropriation of additional funds by the City Council.

3.4 **Access to Data:**

3.4.1 In addition to its other duties under this Contract, the City shall, to the extent permitted by law, perform the following services:

- .1 When requested to do so in writing by the Engineer, provide access to information such as existing drawings, maps, field notes, statistics, computations, and other data in the possession of the City which in the Director's opinion will assist the Engineer in the performance of its services hereunder.

ARTICLE 4

TERM AND TERMINATION

4.1 **Contract Term:**

4.1.1 This Contract is effective on the Countersignature Date and expires «**TERM**» years from the Countersignature Date ("Initial Term"). If the Director, at his or her sole discretion, makes a written request for renewal to Engineer at least 30 days before expiration of the then-current term, and if sufficient funds are allocated, then, upon expiration of the then-current term, this Contract is renewed for «**RENEWYRS**» year(s) upon the same terms and conditions. This Contract may only be renewed for «**RENEWTIMES**» additional term(s) beyond the Initial Term.

4.2 **Termination by the City for Convenience:**

4.2.1 The Director may terminate Engineer's performance under this Contract at any time by giving seven days written notice to Engineer. As soon as possible, but not later than the effective date of such notice, Engineer shall, unless the notice directs otherwise, immediately discontinue all services in connection with this Contract and shall proceed to promptly cancel all existing orders and Consultant subcontracts insofar as such orders or subcontracts are chargeable to this Contract. Within seven days after the effective date of notice of termination, Engineer shall deliver copies of all Documents to the Director and submit an invoice showing in detail services performed under this Contract to the date of termination. The City shall then pay the prescribed fees to Engineer for services actually performed under this Contract up to the date of termination less such payment on account of charges previously made, in the same manner as prescribed above. Any installments or lump sum fees shall be prorated in accordance with the progress of the Work at the effective date of termination. Engineer may, if necessary, submit invoices for vendor and Consultant charges reasonably necessary for the Project which are incurred prior to the effective date of termination and received by Engineer after its initial termination invoice.

4.2.2 Engineer understands and acknowledges that if the City determines not to proceed with this Contract, according to the terms of this Article, the Director shall provide Engineer with a written notice of his intent to terminate this Contract and this Contract shall terminate upon Engineer's receipt of such written notice. Any sums paid to Engineer prior to its receipt of such written notice plus any retained sums to which Engineer is entitled shall constitute full and complete compensation for the services

rendered to the date of receipt of the written notice and Engineer agrees that it will not be entitled to any additional sums.

- 4.3 **Termination by the City for Cause:** City may terminate this Contract in the event of default by Engineer and a failure by Engineer to cure such default after receiving notice thereof, as provided in this Section. Default by Engineer shall occur if Engineer fails to observe or perform any of its duties under this Contract, if Engineer dies (if an individual) or for some other reason is unable to render services hereunder. Should such a default occur, the Director will deliver a written notice to Engineer describing such default and the proposed date of termination. Such date may not be sooner than the 7th day following receipt of the notice. The Director, at his or her sole option, may extend the proposed date of termination to a later date. If Engineer cures such default to the Director's satisfaction prior to the proposed date of termination, then the proposed termination shall be ineffective. If Engineer fails to cure such default prior to the proposed date of termination, then City may terminate its performance under this Contract as of such date, and Engineer shall deliver all Documents to the Director within seven days of the effective date of the termination. In the event of a termination for cause, City may withhold any further payments to the Engineer until the work for which not to exceed caps or lump sum amounts have previously been established. If the City's cost of obtaining completion of the work by other engineers exceeds the remaining contract amounts unpaid to Engineer, or if the City sustains other charges as a result of the default, the City shall not be obligated to make any further payment to Engineer. This provision does not relieve Engineer of any other obligation Engineer may have to the City.
- 4.4 **Termination by Engineer for Cause:** Engineer may terminate its performance only upon default of the City. Should such default occur, Engineer shall have the right to terminate all or part of its duties under this Contract as of the 14th day following the receipt by the City of a notice from Engineer describing such default and intended termination, provided: (1) such termination shall be ineffective if within the fourteen day period the City cures the default and (2) such termination may be stayed beyond such fourteen day period, at the sole option of Engineer, pending cure of the default.

- 5.8 **Acceptances and Approvals:** Any acceptance or approval by the City, or its agents or employees shall not constitute nor be deemed to be a release of the responsibility and liability of Engineer, its employees, agents, Consultants, or suppliers for the accuracy, competency, and completeness for any Documents prepared or services performed pursuant to the terms and conditions of this Contract, nor shall acceptance or approval be deemed to be an assumption of such responsibility or liability by the City, or its agents and employees, for any defect, error or omission in any Documents prepared or services performed by Engineer, its employees, agents, Consultants or suppliers pursuant to this Contract.
- 5.9 **Inspections and Audits:** Representatives of the City shall have the right to examine and review all books, records, and billing documents which are directly related to performance or payment under this Contract.
